POINTERS FOR SHOW - BAKING and COOKING

Cakes Cakes should not have rack marks on the bottom of the cake. Suggest cooling on several layers of clean tea towel.

Fruit Cakes Flavour should be very pleasing, with fruit distributed evenly. All fruit should be cut to a similar size. If overcooked, fruit will start to burst. The top should be nice and smooth. This can be achieved by wetting your hand and patting the top of the cake before cooking.

Boiled Fruit Cake As this is called a 'poor man's fruit cake', it should have only 375g packet of mixed fruit and a nice glossy top. A lot of competitors lose points by cleaning out the bowl too much. This part of the mixture has less fruit and this will show, spoiling the appearance of the cake.

Chocolate Cake Chocolate icing should match the colour of the cake.

Scones Light and fine texture. Size should be about 5cm. For Show work, scones should never touch while cooking. Before bringing scones to a Show, rub any visible flour off with a soft cloth.

Biscuits Flavour plays a big part in judging. Keep shape and size uniform.

Freezing Points For Show work - never freeze sponge cakes, fruit cakes or shortbread. For others, make sure the cake has cooled thoroughly before freezing. Wrap tightly with cling wrap so there is no air between the cake and the wrapping. You can then either put the cake in a dish or just wrap in paper to freeze. For Show work, ice after thawing. Thaw the day before the Show wrapped in a towel to absorb any moisture. Biscuits freeze well. Wrap Show biscuits in cellophane. Put each pack into a plastic dish and freeze. To thaw, take dish out of freezer but leave in airtight container until ready to use. Fruit cakes and shortbread improve in flavour by keeping them out of the freezer. Scones can be frozen, but must be taken out the morning of the Show and wrapped in a tea towel.

Fudge Do not overbeat as it grains too much and loses its bright colour.

Coconut Ice Do not overcook as it becomes hard to cut. Must be boiled, not made on coph. Don't colour pink too rightly.

Relish Cooked for less time than chutney and mostly contains fruit.

Chutney Cooked longer than relish. Best cooked weeks before the Show to allow to mature.

Pickles	When asked for sweet mustard pickles, sugar is used. For pickled onions, use a good white vinegar and make them close to the Show date so they don't lose any of their nice white colour.
Jams	Should be of good colour and flavour, thick enough so that when dropped from spoon, it will stay "dropped". Should have a nice pearly shine. Cook jam slowly before adding sugar and boil briskly after sugar has been added. Add lemon juice at start of cooking jam as it brings out the pectin in the fruit. Jams lose colour with age.
Marmalades	Always cut skins finely. Don't put them through a blender. Some recipes give this method, but it is not acceptable for Show work as it gives the marmalade a cloudy look. If marmalade is too hot when bottled, fruit will rise from bottom losing points.
